Overview: Alaska has one of the highest rates of mTBI per capita in the US. Healthcare providers are faced with unique challenges screening, diagnosing, and treating concussion (mTBI) and the persistence of concussion symptoms known as Post-Concussion Syndrome. Join this webinar with internationally recognized concussion expert Dr. Robert Cantu to hear the latest best-practice guidelines of care for your patients.

Covered Content:
- Screen and diagnose concussion and PCS
- Treat or manage the symptoms of PCS
- Understand appropriate return-to-play guidelines
- Refer to allied health professionals for targeted therapies

Faculty/Instruction:
Robert Cantu, MD
Clinical Professor of Neurology
Boston University School of Medicine

Visit ConcussionFoundation.org/Alaska for more information.
Target Audience: Primary Care Physicians, Family Practice Physicians, Neurologists, Behavioral Neurologists, Psychiatrists, Nurse Practitioners, Nurses, Physician Assistants. Allied health professionals welcome.

Agenda:
- Overview of Concussion & PCS
