

Concussion and Post-Concussion Best-Practice Guidelines of Care

Provided by Boston University School of Medicine

FREE virtual Continuing Medical Education sponsored by Alaska Mental Health Trust Authority

Overview: Alaska has one of the highest rates of concussion (mTBI) per capita in the US. Healthcare providers are faced with unique challenges screening, diagnosing, and treating concussion and the persistence of concussion symptoms known as Post-Concussion Syndrome. Join this webinar with expert concussion, PCS, and suspected Chronic Traumatic Encephalopathy (CTE) clinician Katelynn Cataldo, NP to hear the latest best-practice guidelines of care for your patients.

Register for 10/27, 11am AK

Register for 11/17, 12pm AK

Register for 12/15, 4pm AK

Covered Content:

- Screening and diagnoses of concussion and PCS
- Treatment or management of PCS symptoms
- Appropriate return-to-play guidelines
- CTE caused by long-term repeat head impacts (RHI)

Faculty/Instructor:

Katelynn Cataldo, AGPCNP-BC
Nurse Practitioner

Katelynn Cataldo is a board-certified adult-gerontology primary care nurse practitioner and holds a master's degree from the University of Massachusetts, Worcester practicing at the Emerson Hospital Concussion Care Clinic. She is also certified by the American Nurses Credentialing Center and is currently working on becoming a credentialed ImPACT consultant with a focus on post-injury care.
