LETTER FROM LEADERSHIP

Following a year of extraordinary change, in 2021 we experienced a year of incredible growth both domestically and internationally.

In response to the COVID-19 pandemic, we decided to continue operating in a remote working environment which enabled us to grow our team without limits. Thanks to our generous donors, we added five new staff members from across the United States and Canada to support programs, communications, and development.

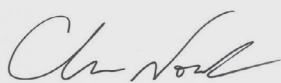

Our growth has driven many exciting program achievements in Education & Advocacy and Patient & Family Services. We continued to drive conversation with viral PSA's promoting our Flag Football Under 14 program (pg. 18). We surpassed our 3,000th client supported through the CLF HelpLine and added new accessible communication options (pg. 22). We launched new resources for our Veterans through our Operation Brain Health video resource library (pg. 27).

Internationally we continued to expand our reach by announcing our third international chapter, CLF UK (pg. 11) and celebrated nine years of advocacy in Canada. Our Global Brain Bank welcomed our newest member at Oxford University and our collaborators in New Zealand received their first brain donation (pg. 28).

None of what we accomplished would have been possible without supporters like you. Your donations, time, and advocacy enabled us to make positive change and advance our mission.

Thank you for your continued support as we work towards achieving our vision of a world without CTE and concussion safety without compromise. We are excited for what 2022 holds.

Sincerely,

Christopher Nowinski
Co-founder & CEO

Robert Cantu
Co-founder & Medical Director

Peter Carfagna
President, Board of Directors

Our Mission

The Concussion Legacy Foundation's mission is to support athletes, Veterans, and all affected by concussions and CTE; achieve smarter sports and safer athletes through education and innovation; and to End CTE through prevention and research.

Our Vision

A world without CTE, and concussion safety without compromise.

ADVISORY ROLES

Concussion Legacy Foundation co-founders Robert Cantu, MD and Chris Nowinski, PhD are proud to serve as advisors to more professional and collegiate sports organizations than any concussion-focused non-profit in the world.

By working with professional and collegiate sports to educate stakeholders and set policy, CLF sets the example for high school and youth sports to follow.

INTERVIEW CHAPTERS

See what CLF is doing overseas

- 01 CLF Canada
- 02 CLF UK

CLF CANADA

In 2021, CLF Canada celebrated nearly a decade of impact.

Since its inception, CLF Canada has worked tirelessly to solve the concussion crisis in Canada, engaging with key stakeholders including the Ontario Government, the Federal/Provincial/Territorial Workgroup on Concussions in Sport, Rugby Canada, the Canadian Football League Players Association (CFLPA), the Canadian Armed Forces (CAF), Canadian Institute for Military and Veteran Health Research (CIMVHR), Defence and Research Development Canada (DRDC), the Centre for Addiction and Mental Health (CAMH), and numerous universities across the country.

CLF Canada continues to grow its presence both on a national and international scale.

27,000

PEOPLE EDUCATED THROUGH THE 'TEAM UP AGAINST CONCUSSIONS' PROGRAM

105

BRAIN PLEDGES

Highlights

Served 126 Canadians and their families across 9/10 Provinces and 1/3 Territories through the CLF HelpLine

Partnered with Edmonton Oilers Captain, Connor McDavid, to provide physical education programming to high school students

Secured Corey Russel and Cream Productions to lead the Rowan Stringer Documentary with Kevin Shea and Ken Macdonald as Executive Producers

Surpassed \$1 million raised since its inception

Received \$375k in funding and in-kind support for Project Enlist Canada from organizations including Galvion, Anthem Sports & Entertainment, and the Canadian Legion Poppy Fund.

CLF UK

On September 23, 2021, CLF launched a new international chapter, the Concussion Legacy Foundation UK, which is led by Dr. Adam J. White as Executive Director. CLF UK partnered with the Jeff Astle Foundation to launch the Concussion Legacy Project, a new brain bank under the direction of Dr. Gabriele DeLuca of Oxford University to advance CTE research on athletes and military Veterans in the UK.

To kick off the launch, former Rugby World Cup winner Steve Thompson announced he pledged his brain to the Concussion Legacy Project.

The launch and Thompson's pledge received widespread international media coverage from outlets including BBC, The Independent, the Mirror, Reuters, SkySports, The Telegraph, The Times, and Yahoo! News.

ting Workshop Schools

Highlights

Taught our Concussion Reporting Workshop to 350 students in 19 different classes at 14 different colleges and universities, bringing our total to 830 students in 44 different classes at 22 different colleges and universities.

20 sports media members became Concussion Reporting Certified, growing the lost of certified media members to 133.

Taught the Concussion Reporting Workshop to our first school in the United Kingdom at St. Mary's University Twickenham

Conducted our first Concussion Reporting Workshop PRO session with a group of journalists in the UK in February 2021. More than a dozen sports media members from prominent UK outlets such as BBC, The Guardian, The Times, and The Sun were in attendance.

Highlights

Estimated Advertising Value Equivalency of our earned media coverage from the PSA was \$10.3 million, with a potential reach of 1.1 billion people.

International news coverage included a live interview with Favre and Dr. Chris Nowinski on CNN and coverage by the Daily Mail, CBS News, NPR, People, USA TODAY, the Washington Post, and dozens of other media outlets.

In 2021, the PSA was seen nearly 110,000 times on YouTube and over 220,000 times on Twitter. It is our most-viewed video on both platforms.

CLF exclusively released the PSA to NBC's TODAY Show where it was played in its entirety alongside a live interview with Brett Favre.

FLAG ⁰³ FOOTBA UNDER

This year CLF continued to be the leading voice encouraging parents to wait to enroll their children in tackle football until age 14 to prevent CTE. Research from the VA-BU-CLF Brain Bank shows a child's odds of developing CTE double every additional three years they play tackle football.

Our "A Warning from the Future" PSA was the core of our Favre4Flag campaign in August 2021. The PSA debuted on the TODAY Show and went viral, sparking a national conversation about whether young kids should be playing tackle football. The PSA features a child who ages throughout the video to become Pro Football Hall of Fame quarterback Brett Favre. Favre urges his "parents" to hold him out of tackle football until he's 14 to lower his risk of CTE.

CLF's Tyler Maland and Julia Manning traveled to Hattiesburg, MS to oversee the PSA shoot and even played the role of the parents in the PSA.

PATIENT & FAMILY SERVICES

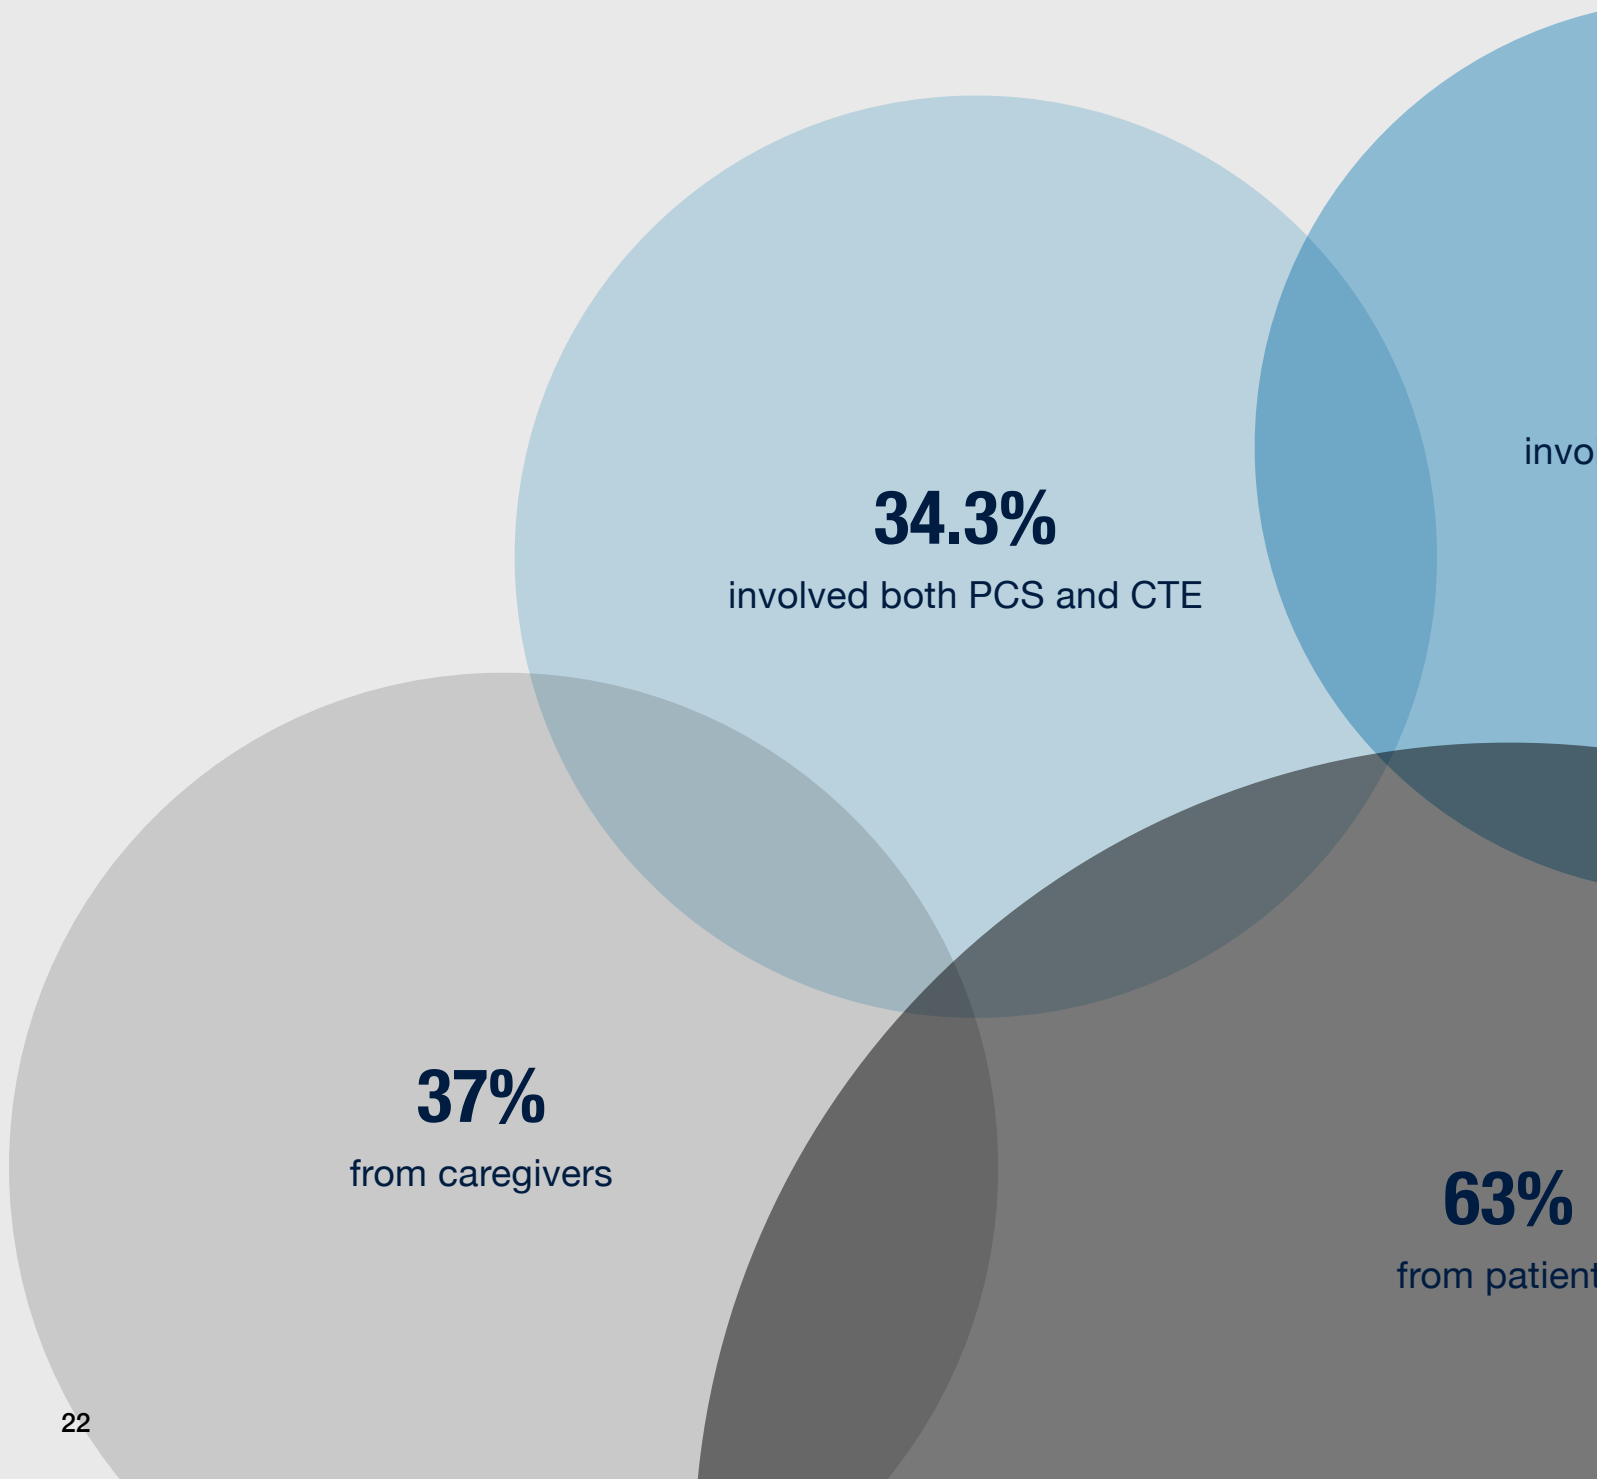

Program Overview

CLF Patient & Family Services provides personalized support for anyone struggling with the outcomes of brain injury through the CLF HelpLine and CLF Mentorship programs. Since 2019, we've helped more than 3,000 patients and families find doctors, educational resources, and peer-support opportunities to help them maintain hope throughout their recovery.

Total number of requests with breakdowns:

1,251

total requests

33.5%

involved suspected CTE

25.3%

involved PCS

10%

Veteran requests

Highlights

Served >1,250 CLF HelpLine clients by email, SMS, and phone

Connected >60 clients with peer support volunteers in CLF Mentorship Program

Expanded CLF HelpLine staff, resources, and case management technology

Introduced automated check ins with clients

Hired a part-time HelpLine coordinator

Vetted 500+ new healthcare providers

Launched CLF Patient Services Project Alaska - a targeted education campaign for doctors and patients in Alaska with \$100,000 grant from the Alaska Mental Health Trust Authority (AMHTA)

Introduced SMS communication and supported more than 550 clients via text messages

RESEARCH

Our research is revolutionizing the world's understanding of brain trauma.

- 01 Project Enlist
- 02 Operation Brain Health
- 03 Global Brain Bank
- 04 Live Project
- 05 1,000 Reasons

PROJECT ENLIST

The mission of Project Enlist is to serve as a catalyst for research on military Veterans with TBI, CTE and PTSD by rapidly increasing the number of Veteran brains donated to brain banks for study.

Brain Bank research is an essential step in developing treatments to help protect and support the heroes who courageously fight for our nation. Thanks to our Program Partners, we are creating a culture of brain donation among Veterans that will lead to greater support for Veterans fighting CTE and a greater investment in research focused on a cure.

Thank You To Our Supporters

Wounded Warrior Project was announced as our first Foundational Partner

Disabled American Veterans (DAV) Charitable Service Trust awarded a \$316,375 grant to support Project Enlist

Robert Irvine Foundation provided a second \$15,000 grant to support Project Enlist

02

OPERATION BRAIN HEALTH

In April 2021, CLF launched Operation Brain Health, a video resource library to educate and support Veterans and caregivers experiencing TBI, PTSD or suspected CTE.

Operation Brain Health is designed for members of the military community and anyone else interested in improving their brain health to help alleviate TBI, PTSD or suspected CTE symptoms. CLF has recruited the top medical experts to contribute to Operation Brain Health including Col. (Ret.) Dr. Sidney Hinds, and U.S. Army Reservist and psychiatrist Dr. Rebecca Van Horn.

The mission of the CLF Global Brain Bank is to accelerate research by collaborating with leading scientists at brain banks around the globe to understand, prevent, treat, and eventually cure CTE and other consequences of sports-related brain trauma.

CLF continues to expand its reach globally by inviting more scientists to participate in this important work.

14 brains donated to the Australian Sports Brain Bank

164 brains donated to the VA-BU-CLF Brain Bank

04

LIVE PROJECT

CLF partnered with researchers from Oxford Brookes University and the University of Winchester to better understand the experiences of family members and caregivers of those who have suffered from concussion, Post-Concussion Syndrome (PCS), and CTE. Led by CLF UK Executive Director Dr. Adam J. White, the first publication of the LivE Project, *Athletes with Neurodegenerative Disease: A Phenomenological Exploration of Family Members' Experiences*, was published in November 2021 in *The Qualitative Report*.

For the study, 15 families were recruited from CLF's 600 member Legacy Family Community. We invite every brain donor family to stay involved with CLF through the LFC, which includes quarterly presentations from VA-BU-CLF Brain Bank researchers and a biennial CLF Family Huddle. The CLF Family Huddle is a three-day conference where LFC members are invited to build community and learn how their loved one is advancing research and advocacy from Boston University, VA, and CLF team members.

05

1,000 REASONS

CLF released the 1,000 Reasons for Hope report in 2021 to celebrate what researchers have learned from the first 1,000 Legacy Donors. The report honors our Legacy Donors and their families, features never-before-seen donor demographics, and spotlights new testimonials from donor family members.

The report also demonstrates how the first 1,000 Legacy Donors are mapping the future of brain trauma research. It features insights from Dr. Ann McKee, Dr. Chris Nowinski, and 17 of the world's top CTE researchers about what they expect to learn from the next thousand donors.

RESILIENT MINDS VIRTUAL 5K RUN & WALK

In March 2021, Cornell University gymnasts Lauren Wong and Courtney Spitzer hosted the virtual Resilient Minds 5K benefiting CLF. Both Wong and Spitzer have experienced several concussions that heavily impacted their involvement in sports, academics, and daily functioning.

With Lauren and Courtney's passion for raising PCS awareness, they proudly raised more than \$9,000 to support CLF's patient and family services.

EARNED MEDIA

PHILLIP ADAMS

In December, 2021 the York County, SC Coroner's Office held a press conference to announce our partners at the BU CTE Center found former NFL player Phillip Adams had stage 2 CTE when he killed six people before taking his own life in April 2021.

CLF hosted the virtual component of the press conference, which featured Dr. Ann McKee and CLF Director of Legacy Family Relations Lisa McHale, for dozens of reporters across the country. The press conference was streamed live on CNN and NBC News NOW.

The news of Adams' CTE diagnosis was covered in national and international outlets like BBC and The Washington Post reaching an estimated 3.2 billion people.

VINCENT JACKSON

On December 17, the news of Vincent Jackson's CTE diagnosis was made public. Jackson was diagnosed with stage 2 CTE by VA-BU-CLF Brain Bank researchers.

CLF worked with ABC News and The New York Times to exclusively tell the story of Vincent Jackson's diagnosis as requested by his family. The story debuted on Good Morning America and a longer segment was featured that night on Nightline.

Vincent Jackson's CTE diagnosis, and Lindsey Jackson's statement in the press release CLF distributed, was widely covered by nearly every national news and sports outlet, in addition to receiving extensive local coverage.

As Jackson did during life, the news made a profound impact throughout the sports community, potentially reaching an estimated 6.9 billion people.

2021 Media/ Social Highlights

Week of 12/13 was the highest website traffic week since 2017 with 41k page views

Donald Parham tweet more than tripled previous twitter records for impressions, engagements and video views. This led to nearly 1k new followers.
