ENLIST

POWERED IN PART BY WOUNDED WARRIOR PROJECT®

Solving the invisible wounds of war

The Concussion Legacy Foundation's **Project Enlist** serves as a catalyst for **advancing research on military Veterans** with traumatic brain injury (TBI), Chronic Traumatic Encephalopathy (CTE) and Post-Traumatic Stress Disorder (PTSD) by increasing the number of Veteran brains donated to brain banks for study.

Through Project Enlist, you can:

Pledge

Pledge your brain to help researchers solve TBI, CTE, PTSD and other consequences of brain trauma.

Serve

Give back to fellow service members by participating in research designed to lead to effective therapies.

Thrive

Through Operation Brain Health, learn how to live your best life regardless of your brain trauma history.

If a Veteran you know has passed away and their family is interested in brain donation, instruct them to call the 24-hour emergency brain donation pager at 617.992.0615.
